A renewed website for our League...

On Christmas day 2024, the renewed Belgian Aeromodelling League website came online. As its predecessor, it uses the Plone infrastructure, now in its recent "Volto" configuration. This software includes a powerful search engine, offers user-friendly "wysiwyg" edition and allows several editors for the various sporting disciplines. Tutorials are in preparation and should be available by the date of the next General Sport Meeting, on January 19th 2025.

Welcome on the website of the Belgian Aeromodelling League

Who are we ?

The Belgian Aeromodelling League (LBA-BML) is the organisation taking care of all aeromodelling competitions in Belgium.

The Belgian Aeromodelling League is managed by a board of eight members, emanating from either of the two regional federations of Belgian aeromodelling clubs:

- [Association d'Aéromodélisme \(AAM\)](#) in the French and German speaking parts of the country
- [Vereniging voor Modellvliegtuigsport \(VVL\)](#) for the Dutch speaking part of the country

The LBA-BML is member of the [Royal Belgian Aeroclub \(ACRB-KBAC\)](#), the federation of all Belgian Air Sports, member of the [Fédération Aéronautique Internationale \(FAI\)](#).

The LBA-BML represents the Belgian aeromodellers at the National Airspace Authority (DGTA-DGLV)

Structured in "sections"

The structure consist of several so-called "sections", each of which is responsible for a specific aeromodelling category.

Categories currently flown in Belgium:

F2B, F2D, F3A, F3B, F3C, F3D, F3G, F3K, F3L, F3P, F3Q, F4C, F5B, F5J, F8U, 555

See "Sport" for further details.

Each section is managed by a "coordinator" who takes care of all administrative matters for his/her specific category. On the field, depending on the part of the country where the event takes place, either the Dutch speaking or the French speaking "sporting director" acts as the local FAI jury.

For the aerobatics categories (F2B, F3A, F3P, F4C), designated judges (generally 3 appointed persons) evaluate the performances.

Obituary

Guy Revel-Mouroz

... passed away on September 11th

Guy Revel-Mouroz was born in France in the 1950s. He founded the French association "EOLE" and initiated competitions with radio-controlled soaring in his country. In the late '70s, he organised in Saint-André de l'Eure the first "International Eole Trophy" based on the emerging FAI "F3B Three-tasks Soaring" regulation. This was the *de facto* start of the thermal soaring activity in France. This competition was for many years a classic in the international soaring circuit.

Besides his role in managing the EOLE club, Guy Revel was also a popular, well informed and respected journalist and his monthly columns in the French magazine *Radio-Modélisme* were a landmark for all gliding pilots. Guy was also the author, in 2010, of part F6 of the FAI Aeromodelling Sporting code about "Promotion classes" like Aeromusicals and Artistic Aerobatics.
